<sup>(</sup>a) Prior to November 6, 2023, the Fund operated as a traditional, open-end mutual fund and series of FundVantage Trust. See Note 1.

<sup>(</sup>b) Net investment income per share has been calculated based on average shares outstanding during the periods.

<sup>(</sup>c) Amount represents less than \$0.005 per share.

<sup>(</sup>d) Realized and unrealized gains and losses per share in the caption are balancing amounts necessary to reconcile the change in net asset value per share for the periods, and may not reconcile with the aggregate gains and losses in the Statements of Operations due to share transactions for the periods.

<sup>(</sup>e) Amount represents less than (0.005) per share.

<sup>(</sup>f) Not annualized for periods less than one year.

<sup>(</sup>g) Annualized for periods less than one year.

<sup>(</sup>h) Portfolio turnover rate excludes in-kind transactions.

### NOTE 1 – ORGANIZATION

The Gotham Enhanced 500 ETF, Gotham 1000 Value ETF, and Gotham Short Strategies ETF are each diversified series of shares (each, a "Fund," and collectively, the "Funds") of beneficial interest of Tidal ETF Trust (the "Trust"). The Trust was organized as a Delaware statutory trust on June 4, 2018 and is registered with the Securities and Exchange Commission (the "SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company and the offering of each Fund's shares ("Shares") is registered under the Securities Act of 1933, as amended. The Trust is governed by the Board of Trustees (the "Board"). Tidal Investments LLC ("Tidal Investments" or the "Adviser"), a Tidal Financial Group company, serves as investment adviser to the Funds and Gotham Asset Management, LLC ("Gotham" or the "Sub-Adviser") serves as investment sub-adviser to the Funds. Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services—Investment Companies."

The Gotham Enhanced 500 ETF commenced operations on December 28, 2020, the Gotham 1000 Value ETF commenced operations on June 7, 2022, and the Gotham Short Strategies ETF commenced operations on January 31, 2008. Effective November 6, 2023, the Gotham Short Strategies Fund (the "Predecessor Fund"), a mutual fund and series of FundVantage Trust, was converted into an exchange-traded fund through the reorganization of the Predecessor Fund into the Gotham Short Strategies ETF, a newly created corresponding series of the Trust with substantially similar investment objectives and substantially similar principal investment strategies as the Predecessor Fund. The Gotham Short Strategies ETF has adopted the accounting history and performance of the Predecessor Fund. For financial reporting purposes, assets received and shares issued by the Gotham Short Strategies ETF were recorded at fair value; however, the cost basis of the investments received from the Predecessor Fund was carried forward to align ongoing reporting of the Gotham Short Strategies ETF realized and unrealized gains and losses with amounts distributable to shareholders for tax purposes.

The investment objective of each of the Gotham Enhanced 500 ETF and the Gotham 1000 Value ETF is to seek long-term capital appreciation. The investment objective of the Gotham Short Strategies ETF is to seek long-term capital appreciation and to provide positive returns in down markets.

### NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds. These policies are in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

A. Security Valuation. Equity securities, which may include Real Estate Investment Trusts ("REITs"), Business Development Companies ("BDCs"), and Master Limited Partnerships ("MLPs"), listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on The Nasdaq Stock Market, LLC ("NASDAQ")), including securities traded over-the-counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 p.m. EST if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price or mean between the most recent quoted bid and ask prices for long and short positions. For a security that trades on multiple exchanges, the primary exchange will generally be considered the exchange on which the security is generally most actively traded. For securities traded on the NASDAQ Official Closing Price will be used. Prices of securities traded on the securities exchange will be obtained from recognized independent pricing agents each day that the Funds are open for business.

Swap contracts, such as credit default swaps, total return swaps, interest rate swaps, currency swaps and swaptions, are priced by an approved independent pricing service. The independent pricing service will include unadjusted exchange close prices but may also provide prices with observable market data inputs in an evaluated valuation methodology.

Under Rule 2a-5 of the 1940 Act, a fair value will be determined for securities for which quotations are not readily available by the Valuation Designee (as defined in Rule 2a-5) in accordance with the Pricing and Valuation Policy and Fair Value Procedures, as applicable, of the Adviser, subject to oversight by the Board. When a security is "fair valued," consideration is given to the facts and circumstances relevant to the particular situation, including a review of various factors set forth in the Adviser's Pricing and Valuation Policy and Fair Value Procedures, as applicable. Fair value pricing is an inherently subjective process, and no single standard exists for determining fair value. Different funds could reasonably arrive at different values for the same security. The use of fair value pricing by a Fund may cause the net asset value ("NAV") of its shares to differ significantly from the NAV that would be calculated without regard to such considerations.

As described above, the Funds utilize various methods to measure the fair value of their investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a summary of the inputs used to value each Fund's investments as of March 31, 2025:

### **Gotham Enhanced 500 ETF**

|   | Level 1        | Level 2 | Level 3 | <u>Total</u>   |

Refer to the Schedules of Investments for further disaggregation of investment categories.

- (a) Certain investments that are measured at fair value using the net asset value per Share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts listed in the Schedules of Investments.
- (b) The fair value of the Fund's other financial instruments represents the net unrealized appreciation (depreciation) as of March 31, 2025.
- B. Derivative Instruments. Total return swaps are a swap agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. The Gotham Short Strategies ETF will generally enter into swap agreements on a net basis, which means the two payment streams that are to be made by the Fund and its counterparty with respect to a particular swap agreement are netted out, with the Fund receiving or paying, as the case may be, only the net difference in the two payments. The Fund's obligations (or rights) under a swap agreement that is entered into on a net basis will generally be the net amount to be paid or received under the agreement based on the relative values of the obligations of each party upon termination of the agreement or at set valuation dates. The Fund will accrue its obligations under a swap agreement daily (offset by any amounts the counterparty owes the Fund). If the swap agreement does not provide for that type of netting, the full amount of the Fund's obligations will be accrued on a daily basis.

The Fund has adopted financial reporting rules and regulations that require enhanced disclosure regarding derivatives and hedging activity intending to improve financial reporting of derivative instruments by enabling investors to understand how an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity's results of operations and financial position. The following tables show the effects of derivative instruments on the Gotham Short Strategies ETF's financial statements.

For the period ended March 31, 2025, the Gotham Short Strategies ETF's monthly average quantity and notional value are described below:

|   | Average<br>Contracts | Average<br>Notional Amount |

C. Federal Income Taxes. Each Fund has elected to be taxed as a regulated investment company ("RIC") and intends to distribute substantially all taxable income to its shareholders and otherwise comply with the provisions of the Internal Revenue Code applicable to RICs. Therefore, no provision for federal income taxes or excise taxes has been made.

In order to avoid imposition of the excise tax applicable to RICs, each Fund intends to declare as dividends in each calendar year at least 98% of its net investment income (earned during the calendar year) and at least 98.2% of its net realized capital gains (earned during the twelve months ended October 31) plus undistributed amounts, if any, from prior years. As a RIC, each Fund is subject to a 4% excise tax that is imposed if a Fund does not distribute by the end of any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one year period generally ending on October 31 of the calendar year (unless an election is made to use the Funds' fiscal year). The Funds generally intend to distribute income and capital gains in the manner necessary to minimize (but not necessarily eliminate) the imposition of such excise tax. The Funds may retain income or capital gains and pay excise tax when it is determined that doing so is in the best interest of shareholders. Management evaluates the costs of the excise tax relative to the benefits of retaining income and capital gains, including that such undistributed amounts (net of the excise tax paid) remain available for investment by the Funds and are available to supplement future distributions. Tax expense is disclosed in the Statements of Operations, if applicable.

As of March 31, 2025, the Funds did not have any tax positions that did not meet the threshold of being sustained by the applicable tax authority. Generally, tax authorities can examine all the tax returns filed for the last three years. Each Fund identifies its major tax jurisdiction as U.S. Federal and the Commonwealth of Delaware; however, the Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially.

D. Securities Transactions and Investment Income. Investment securities transactions are accounted for on the trade date. Gains and losses realized on sales of securities are determined on a specific identification basis. Discounts/premiums on debt securities purchased are accreted/amortized over the life of the respective securities using the effective interest method. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Other non-cash dividends are recognized as investment income at the fair value of the property received. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable country's tax rules and rates. If a Fund's distributions exceed its earnings and profits, all or a portion of the distributions made for a taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable but will reduce each shareholder's cost basis in a Fund and result in a higher capital gain or lower capital loss when the Shares of a Fund on which the distribution was received are sold. After a shareholder's basis in the Shares has been reduced to zero, distributions in excess of earnings and profits will be treated as gain from the sale of the shareholder's Shares.

A REIT is a corporation or business trust (that would otherwise be taxed as a corporation) which meets the definitional requirements of the Internal Revenue Code of 1986, as amended (the "Code"). The Code permits a qualifying REIT to deduct from taxable income the dividends paid, thereby effectively eliminating corporate level federal income tax. To meet the definitional requirements of the Code, a REIT must, among other things: invest substantially all of its assets in interests in real estate (including mortgages and other REITs), cash and government securities; derive most of its income from rents from real property or interest on loans secured by mortgages on real property; and, in general, distribute annually 90% or more of its taxable income (other than net capital gains) to shareholders.

The Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

The Funds report net realized foreign exchange gains or losses that arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at period end, resulting from changes in exchange rates.

- E. *Distributions to Shareholders*. Distributions to shareholders from net investment income, if any, for the Funds are declared and paid at least annually. Distributions to shareholders from net realized gains on securities, if any, for the Funds normally are declared and paid at least annually. Distributions are recorded on the ex-dividend date.
- F. Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.
- G. *Share Valuation*. The NAV per Share is calculated by dividing the sum of the value of the securities held by each Fund, plus cash or other assets, minus all liabilities by the total number of Shares outstanding for each Fund, rounded to the nearest cent. Each Fund's Shares will not be priced on the days on which the New York Stock Exchange ("NYSE") is closed for trading.
- H. *Foreign Currency*. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.
- I. Guarantees and Indemnifications. In the normal course of business, the Funds enter into contracts with service providers that contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.
- J. Illiquid Securities. Pursuant to Rule 22e-4 under the 1940 Act, the Funds have adopted a Board-approved Liquidity Risk Management Program (the "Program") that requires, among other things, that each Fund limit its illiquid investments that are assets to no more than 15% of the value of each Fund's net assets. An illiquid investment is any security that a Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If a Fund should be in a position where the value of illiquid investments held by a Fund exceeds 15% of that Fund's net assets, that Fund will take such steps as set forth in the Program.
- K. Derivatives Transactions. Pursuant to Rule 18f-4 under the 1940 Act, the SEC imposes limits on the amount of derivatives a fund can enter into, eliminates the asset segregation and cover framework arising from prior SEC guidance for covering derivatives and certain financial instruments currently used by funds to comply with Section 18 of the 1940 Act and treats derivatives as senior securities. Under Rule 18f-4, a fund's derivatives exposure is limited through a value-at-risk test. Funds whose use of derivatives is more than a limited specified exposure amount are required to establish and maintain a comprehensive derivatives risk management program, subject to oversight by a fund's board of trustees, and appoint a derivatives risk manager. The Gotham Short Strategies ETF has implemented a Rule 18f-4 Derivative Risk Management Program that complies with Rule 18f-4.

### **NOTE 3 – PRINCIPAL INVESTMENT RISKS**

Counterparty Risk (Gotham Short Strategies ETF Only). Swaps and certain other derivative contracts entered into by the Fund involve exposure to counterparty credit risk, since contract performance depends in part on the financial condition of the counterparty. Relying on a counterparty exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease. In addition, to the extent the Fund deals with a limited number of counterparties, it will be more susceptible to the credit risks associated with those counterparties. The Fund is neither restricted from dealing with any particular counterparty nor from concentrating any or all of its transactions with one counterparty. The ability of the Fund to transact business with any one or number of counterparties and the absence of a regulated market to facilitate settlement may increase the potential for losses by the Fund.

Database Error Risk. The investment strategies used by the Sub-Adviser, rely on proprietary databases and third-party data sources. Data entries made by the Sub-Adviser's team of financial analysts or third parties may contain errors, as may the database system used to store such data. Any errors in the underlying data sources, data entry or database may result in the Funds acquiring or selling investments based on incorrect information.

Derivatives Risk (Gotham Short Strategies ETF Only). The Fund obtains portfolio exposure through the use of swap(s) referenced to a basket of short and/or long equity security positions selected by the Sub-Adviser. In general, with a derivative, the Fund will be exposed to additional risks that are separate from those associated with short sales. In general, a derivative contract such as a swap typically involves leverage (i.e., it provides exposure to potential gain or loss from a change in the market price of a security or group of securities in a notional amount that exceeds the amount of cash or assets required to establish or maintain the derivative contract). Swap agreements can be highly volatile, illiquid and difficult to value, and changes in the value of such instruments held by the Fund may not correlate with the underlying instrument or reference assets, or the Fund's other investments. Although the value of swap agreements depends largely upon price movements in the underlying instrument or reference asset, there are additional risks associated with swap agreements that are possibly greater than the risks associated with investing directly in the underlying instruments or reference assets, including illiquidity risk, leveraging risk and counterparty credit risk. Any swap will be based on a notional amount agreed upon by the Sub-Adviser and a counterparty. The Sub-Adviser will retain the ability to adjust the notional exposure of the swap at its discretion, as well as the composition of the reference short securities basket. Generally, the fees and expenses of a swap are based on the notional value of the swap. The value of the swap typically includes a deduction for fees of the counterparty as well as costs typically associated with short sales of securities, such as dividend and interest expenses. As a result, the Fund's return from such instrument will be net of such costs and expenses and any such costs and expenses will reduce the Fund's return on the swap. A small position in swap agreements could have a potentially large impact on the Fund's performance. Trading restrictions or limitations may be imposed by an exchange, and government regulations may restrict trading in swap agreements or any other derivative.

Exchanged Traded Fund ("ETF") Risks.

- Authorized Participants, Market Makers, and Liquidity Providers Concentration Risk. The Fund has a limited number of financial institutions that are authorized to purchase and redeem Shares directly from the Fund (known as "Authorized Participants" or "APs"). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services; or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.
- Cash Redemption Risk (Gotham Short Strategies ETF Only). The Fund's investment strategy may require it to redeem Shares for cash or to otherwise include cash as part of its redemption proceeds. For example, the Fund may not be able to redeem inkind certain securities held by the Fund (e.g., swap agreements that cannot be broken up beyond certain minimum sizes needed for transfer and settlement). In such a case, the Fund may be required to sell or unwind portfolio investments to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize a capital gain that it might not have recognized if it had made a redemption in-kind. As a result, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used.
- Costs of Buying or Selling Shares. Due to the costs of buying or selling Shares, including brokerage commissions imposed by brokers and bid-ask spreads, frequent trading of Shares may significantly reduce investment results and an investment in Shares may not be advisable for investors who anticipate regularly making small investments.
- Shares May Trade at Prices Other Than NAV. As with all ETFs, Shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of Shares will approximate a Fund's NAV, there may be times when the market price of Shares is more than the NAV intra-day (premium) or less than the NAV intra-day (discount) due to supply and demand of Shares or during periods of market volatility. This risk is heightened in times of market volatility, periods of steep market declines, and periods when there is limited trading activity for Shares in the secondary market, in which case such premiums or discounts may be significant. Because securities held by the Gotham Short Strategies ETF may trade on foreign exchanges that are closed when the Fund's primary listing exchange is open, the Fund is likely to experience premiums and discounts greater than those of ETFs holding only domestic securities.

• Trading. Although Shares are listed on a national securities exchange, such as the NYSE Arca, Inc. (the "Exchange"), and may be traded on U.S. exchanges other than the Exchange, there can be no assurance that Shares will trade with any volume, or at all, on any stock exchange. In stressed market conditions, the liquidity of Shares may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than Shares. Also, in stressed market conditions, the market for Shares may become less liquid in response to deteriorating liquidity in the markets for the Funds' underlying portfolio holdings. These adverse effects on liquidity for Shares, in turn, could lead to wider bid/ask spreads and differences between the market price of Shares and the underlying value of those Shares.

Equity Market Risk. The equity securities held in each Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific issuers, industries, or sectors in which the Funds invest. Common stocks, such as those held by the Funds, are generally exposed to greater risk than other types of securities, such as preferred stock and debt obligations, because common stockholders generally have inferior rights to receive payment from issuers.

General Market Risk. Securities markets and individual securities may increase or decrease in value. Security prices may fluctuate widely over short or extended periods in response to market or economic news and conditions, and securities markets also tend to move in cycles. If there is a general decline in the securities markets, it is possible your investment may lose value regardless of the individual results of the companies in which the Funds invest. The magnitude of up and down price or market fluctuations over time is sometimes referred to as "volatility", and it can be significant. In addition, different asset classes and geographic markets may experience periods of significant correlation with each other. As a result of this correlation, the securities and markets in which the Funds invest may experience volatility due to market, economic, political or social events and conditions that may not readily appear to directly relate to such securities, the securities' issuer or the markets in which they trade.

High Portfolio Turnover Risk. The Funds may actively and frequently trade all or a significant portion of the securities in their portfolios. A high portfolio turnover rate increases transaction costs, which may increase each Fund's expenses. Frequent trading may also cause adverse tax consequences for investors in the Funds due to an increase in short-term capital gains.

Large-Capitalization Investing Risk The securities of large-capitalization companies may be relatively mature compared to smaller companies and therefore subject to slower growth during times of economic expansion. Large-capitalization companies may also be unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes.

Leverage Risk (Gotham Short Strategies ETF Only). The Fund utilizes leverage in its investment program. The use of leverage allows the Fund to make additional investments, thereby increasing its exposure to assets, such that its total assets may be greater than its capital. However, leverage also magnifies the volatility of changes in the value of the Fund's portfolio. The effect of the use of leverage by the Fund in a market that moves adversely to its investments could result in substantial losses to the Fund, which would be greater than if the Fund were not leveraged.

Liquidity Risk (Gotham Short Strategies ETF Only). The Fund is subject to liquidity risk primarily due to its investments in derivatives. Investments in illiquid securities or derivative instruments involve the risk that the Fund may be unable to sell the security or derivative instrument or sell it at a reasonable price.

Mid-Capitalization Investing Risk (Gotham 1000 Value ETF and Gotham Short Strategies ETF Only). The securities of mid-capitalization companies may be more vulnerable to adverse issuer, market, political, or economic developments than securities of large-capitalization companies. The securities of mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than large-capitalization stocks or the stock market as a whole.

*Management Risk.* The Funds are actively-managed and may not meet their investment objectives based on the Sub-Adviser's success or failure to implement investment strategies for the Funds.

OTC Trading Risk (Gotham Short Strategies ETF Only). Certain of the derivatives in which the Fund invests may be traded (and privately negotiated) in the "over-the-counter" or "OTC" market. While the OTC derivatives market is the primary trading venue for many derivatives, it is largely unregulated. As a result and similar to other privately negotiated contracts, the Fund is subject to counterparty credit risk with respect to such derivative contracts.

Sector Risk. At times the Funds may increase the relative emphasis of their investments in a particular sector or group of industries. The prices of securities of issuers in a particular sector may be more susceptible to fluctuations due to changes in economic or business conditions, government regulations, availability of basic resources or supplies, or other events that affect that industry or sector more than securities of issuers in other industries and sectors. To the extent that the Funds increase the relative emphasis of their investments in a particular industry or sector, the value of Shares may fluctuate in response to events affecting that industry or sector.

Short Sale Risk (Gotham Short Strategies ETF Only). Short selling a security involves selling a borrowed security with the expectation that the value of that security will decline so that the security may be purchased at a lower price when returning the borrowed security. The risk for loss on short selling is greater than the original value of the securities sold short because the price of the borrowed security may rise, thereby increasing the price at which the security must be purchased. Any such loss is increased by the amount of premium or interest the Fund must pay to the lender of the security. Likewise, any gain will be decreased by the amount of premium or interest the Fund must pay to the lender of the security. Although the Fund's gain is limited to the price at which it sold the security short, its potential loss is limited only by the maximum attainable price of the security, less the price at which the security was sold and may, theoretically, be unlimited. Government actions also may affect the Fund's ability to engage in short selling. In addition, the Fund may be subject to expenses related to short sales that are not typically associated with investing in securities directly, such as costs of borrowing and margin account maintenance costs associated with the Fund's open short positions. These types of short sales expenses (sometimes referred to as the "negative cost of carry") negatively impact the performance of the Fund since these expenses tend to cause the Fund to lose money on a short sale even in instances where the price of the underlying security sold short does not change over the duration of the short sale. The Fund may not be able to borrow a security that it needs to deliver or it may not be able to close out a short position at an acceptable price and may have to sell long positions earlier than it had expected.

Small- and Mid-Cap Securities Risk (Gotham Short Strategies ETF Only). In addition to large cap securities, the Fund also invests in small and mid-cap companies. Investments in small and mid-cap companies may be riskier than investments in larger, more established companies. The securities of smaller companies may trade less frequently and in smaller volumes, and as a result, may be less liquid than securities of larger companies. In addition, smaller companies may be more vulnerable to economic, market and industry changes. As a result, share price changes may be more sudden or erratic than the prices of other equity securities, especially over the short-term. Because smaller companies may have limited product lines, markets or financial resources or may depend on a few key employees, they may be more susceptible to particular economic events or competitive factors than large capitalization companies.

Systems Risk. The Funds depend on the Sub-Adviser to develop and implement appropriate systems to provide sub-advisory services. The Sub-Adviser relies extensively on computer programs and systems to implement and monitor each Fund's investment strategy. As a result, there is a risk of human or technological errors affecting the portfolio construction process and order origination, including errors in programming (e.g., "bugs" and classic coding errors), modeling, design, translational errors and compatibility issues with data sets and among systems. There can be no guarantee that such defects or issues will be identified in time to avoid a material adverse effect on the Funds.

Value Style Risk. The Sub-Adviser buys securities, on behalf of the Funds, that it believes are undervalued. Investing in "value" stocks presents the risk that the stocks may never reach what the Sub-Adviser believes are their full market values, either because the market fails to recognize what the Sub-Adviser considers to be the companies' true business values or because the Sub-Adviser misjudges those values. In addition, value stocks may fall out of favor with investors and underperform other stocks (such as growth stocks) during given periods. Conversely, the Gotham Short Strategies ETF shorts securities the Sub-Adviser believes are overvalued. This presents the risk that a stock's value may not decrease to what the Sub-Adviser believes is its true market value because the market fails to recognize what the Sub-Adviser considers to be the company's value, because the Sub-Adviser misjudges that value or because the Sub-Adviser is required to purchase the security before its investment thesis could be realized.

### NOTE 4 – COMMITMENTS AND OTHER RELATED PARTY TRANSACTIONS

The Adviser serves as investment adviser to the Funds pursuant to an investment advisory agreement between the Adviser and the Trust, on behalf of the Funds (the "Advisory Agreement"), and, pursuant to the Advisory Agreement, provides investment advice to the Funds and oversees the day-to-day operations of the Funds, subject to the direction and oversight of the Board. The Adviser is also responsible for trading portfolio securities for the Gotham Enhanced 500 ETF and the Gotham 1000 Value ETF, including selecting broker-dealers to execute purchase and sales transactions, subject to the supervision of the Board. With respect to the Gotham Short Strategies ETF, the Adviser is responsible for any trading of portfolio securities that may be required in connection with the issuance or redemption of Creation Units for the Fund, including selecting broker-dealers to execute purchase and sales transactions. The Adviser has, however, delegated trading authority in connection with the day-to-day management of the Gotham Short Strategies ETF's portfolio to the Sub-Adviser, including selecting broker-dealers to execute purchase and sales transactions.

Pursuant to the Advisory Agreement, each Fund pays the Adviser a unitary management fee (the "Investment Advisory Fee") based on the average daily net assets of the Funds as follows:

|                             | Investment Advisory | Investment Advisory |
|-----------------------------|---------------------|---------------------|
| Fund                        | Fee                 | Fee After Waiver    |
| Gotham Enhanced 500 ETF     | 0.65%               | 0.50%               |
| Gotham 1000 Value ETF       | 0.65%               | 0.50%               |
| Gotham Short Strategies ETF | 1.35%               | N/A*                |

<sup>\*</sup> Prior to reorganizing into the Gotham Short Strategies ETF, the Predecessor Fund waived expenses to an expense cap of 1.35% of average daily net assets during the period October 1, 2023 through November 3, 2023.

The Adviser has contractually agreed to a reduced Investment Advisory Fee for the Gotham Enhanced 500 ETF and the Gotham 1000 Value ETF to 0.50% until at least January 31, 2026 (the "Fee Waiver Agreements"). The Fee Waiver Agreements may be terminated only by, or with the consent of, the Board. Any waived Investment Advisory Fees are not able to be recouped by the Adviser under the Fee Waiver Agreements.

Out of each Investment Advisory Fee, the Adviser is obligated to pay or arrange for the payment of substantially all expenses of the Funds, including the cost of sub-advisory, transfer agency, custody, fund administration, and all other related services necessary for the Funds to operate. Under the Advisory Agreement, the Adviser has agreed to pay, or require the Sub-Adviser to pay, all expenses incurred by the Funds except for interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution fees and expenses paid by the Funds under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act (collectively, "Excluded Expenses"). The Investment Advisory Fees incurred are paid monthly to the Adviser. Investment Advisory Fees for the six-months ended March 31, 2025 are disclosed in the Statements of Operations.

The Sub-Adviser serves as investment sub-adviser to the Funds, pursuant to a sub-advisory agreement between the Adviser and the Sub-Adviser with respect to each Fund (the "Sub-Advisory Agreement"). Pursuant to the Sub-Advisory Agreement, the Sub-Adviser is responsible for the day-to-day management of the Gotham Enhanced 500 ETF and Gotham 1000 Value ETF portfolios, including determining the securities purchased and sold by the Funds, subject to the supervision of the Adviser and the Board. The Adviser may retain responsibility for trading portfolio securities for the Gotham Short Strategies ETF or may delegate such authority to the Sub-Adviser. The Sub-Adviser currently exercises trading authority in connection with the day-to-day management of the Gotham Short Strategies ETF portfolio, including selecting broker-dealers to execute purchase and sale transactions; however, trading authority related to the issuance or redemption of creation units is currently being exercised by the Adviser. If the Adviser determines to retain trading authority, the Sub-Adviser will no longer trade the Gotham Short Strategies ETF's portfolio securities. The Sub-Adviser is paid a fee by the Adviser, which is calculated daily and paid monthly, at an annual rate of 0.50% of average daily net assets for the Gotham Enhanced 500 ETF and Gotham 1000 Value ETF and 1.20% of average daily net assets for the Gotham Short Strategies ETF.

Under the Sub-Advisory Agreement, the Sub-Adviser has agreed to assume the Adviser's obligation to pay all expenses incurred by the Funds except for the sub-advisory fee payable to the Sub-Adviser and Excluded Expenses. Such expenses incurred by the Funds and paid by the Sub-Adviser include fees charged by Tidal (defined below), which is an affiliate of the Adviser. For assuming the payment obligations for the Funds, the Adviser has agreed to pay the Sub-Adviser the profits, if any, generated by each Fund's Investment Advisory Fee, less a contractual fee retained by the Adviser.

Tidal ETF Services LLC ("Tidal"), a Tidal Financial Group company and an affiliate of the Adviser, serves as the Funds' administrator and, in that capacity, performs various administrative and management services for the Funds. Tidal coordinates the payment of Fund-related expenses and manages the Trust's relationships with its various service providers. As compensation for the services it provides, Tidal receives a fee based on each Fund's average daily net assets, subject to a minimum annual fee. Tidal also is entitled to certain out-of-pocket expenses for the services mentioned above.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as the Funds' sub-administrator, fund accountant and transfer agent. In those capacities, Fund Services performs various administrative and accounting services for the Funds. Fund Services prepares various federal and state regulatory filings, reports and returns for the Funds, including regulatory compliance monitoring and financial reporting; prepares reports and materials to be supplied to the Board; and monitors the activities of the Funds' custodian. U.S. Bank N.A. (the "Custodian"), an affiliate of Fund Services, serves as the Funds' custodian. The Custodian acts as the securities lending agent for the Gotham Enhanced 500 ETF and the Gotham 1000 Value ETF.

Foreside Fund Services, LLC (the "Distributor") acts as the Funds' principal underwriter in a continuous public offering of the Funds' Shares.

For the Predecessor Fund, prior to its reorganization into the Trust, the investment adviser, custodian, fund administrator and transfer agent, and principal underwriter were Gotham Asset Management, LLC, The Bank of New York Mellon, BNY Mellon Investment Servicing (US) Inc., and Foreside Funds Distributors LLC, respectively.

Certain officers and a trustee of the Trust are affiliated with the Adviser. Neither the affiliated trustee nor the Trust's officers receive compensation from the Funds.

### **NOTE 5 – SEGMENT REPORTING**

In accordance with the FASB Accounting Standards Update (ASU) 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, the Funds have evaluated their business activities and determined that they each operate as a single reportable segment.

Each Fund's investment activities are managed by the Adviser, which serves as the Chief Operating Decision Maker ("CODM"). The Adviser is responsible for assessing each Fund's financial performance and allocating resources. In making these assessments, the Adviser evaluates each Fund's financial results on an aggregated basis, rather than by separate segments. As such, the Funds do not allocate operating expenses or assets to multiple segments, and accordingly, no additional segment disclosures are required. There were no intra-entity sales or transfers during the reporting period.

The Funds primarily generate income through dividends, interest, and realized/unrealized gains on their investment portfolios. Expenses incurred, including management fees, Fund operating expenses, and transaction costs, are considered general Fund-level expenses and are not allocated to specific segments or business lines.

Management has determined that the Funds do not meet the criteria for disaggregated segment reporting under ASU 2023-07 and will continue to evaluate its reporting requirements in accordance with applicable accounting standards.

### **NOTE 6 – SECURITIES LENDING**

The Gotham Enhanced 500 ETF and Gotham 1000 Value ETF may lend up to 33 1/3% of the value of the securities in its portfolio to brokers, dealers and financial institutions (but not individuals) under terms of participation in a securities lending program administered by the Securities Lending Agent. The securities lending agreement requires that loans are collateralized at all times in an amount equal to at least the market value of the securities loaned by the Gotham Enhanced 500 ETF and Gotham 1000 Value ETF. The Gotham Enhanced 500 ETF and Gotham 1000 Value ETF receive compensation in the form of fees and earned interest on the cash collateral. Due to timing issues of when a security is recalled from loan, the financial statements may differ in presentation. The amount of fees depends on a number of factors including the type of security and length of the loan. The Gotham Enhanced 500 ETF and Gotham 1000 Value ETF continue to receive interest payments or dividends on the securities loaned during the borrowing period. Gain or loss in the value of securities loaned that may occur during the term of the loan will be for the account of each Fund. The Gotham Enhanced 500 ETF and Gotham 1000 Value ETF have the right under the terms of the securities lending agreements to recall the securities from the borrower on demand. The Gotham Short Strategies ETF does not currently participate in securities lending.

As of March 31, 2025, the market value of the securities on loan and payable on collateral received for securities lending were as follows:

|                         | Mai  | ket Value of       |    | Payable on<br>Collateral | Net Assets of      |
|-------------------------|------|--------------------|----|--------------------------|--------------------|
| <b>Fund</b>             | Secu | Securities on Loan |    | Received                 | Securities on Loan |
| Gotham Enhanced 500 ETF | \$   | 10,762,753         | \$ | 10,864,006               | 2.1%               |
| Gotham 1000 Value ETF   |      | 33,511,191         |    | 34,273,775               | 19.0%              |

As of March 31, 2025, the Funds had loaned securities and received cash collateral for the loans. The cash collateral is invested in the Mount Vernon Liquid Assets Portfolio, LLC of which the investment objective is to seek to maximize income to the extent consistent with the preservation of capital and liquidity and maintain a stable NAV of \$1.00. Although risk is mitigated by the collateral, the Funds

could experience a delay in recovering their securities and possible loss of income or value if the borrower fails to return the borrowed securities. In addition, the Funds bear the risk of loss associated with the investment of cash collateral received.

During the six-months ended March 31, 2025, the Funds loaned securities that were collateralized by cash. The cash collateral received was invested in the Mount Vernon Liquid Assets Portfolio, LLC as listed in each Fund's Schedule of Investments. Securities lending income is disclosed in the Funds' Statements of Operations.

The Funds are not subject to a master netting agreement with respect to each Funds' participation in securities lending; therefore, no additional disclosures regarding netting arrangements are required.

### NOTE 7 - PURCHASES AND SALES OF SECURITIES

For the six-months ended March 31, 2025, the cost of purchases and proceeds from the sales or maturities of securities, excluding short-term investments, U.S. government securities, and in-kind transactions were as follows:

| Fund                        | <br>Purchases     | Sales |             |  |
|-----------------------------|-------------------|-------|-------------|--|
| Gotham Enhanced 500 ETF     | \$<br>338,939,039 | \$    | 338,227,660 |  |
| Gotham 1000 Value ETF       | 188,106,565       |       | 191,319,713 |  |
| Gotham Short Strategies ETF | 38,269,944        |       | 34,319,751  |  |

For the six-months ended March 31, 2025, there were no purchases or sales of long-term U.S. government securities.

For the six-months ended March 31, 2025, in-kind transactions associated with creations and redemptions for the Funds were as follows:

| <b>Fund</b>                 | <br>Purchases    | Sales |           |  |
|-----------------------------|------------------|-------|-----------|--|
| Gotham Enhanced 500 ETF     | \$<br>33,587,154 | \$    | 2,296,357 |  |
| Gotham 1000 Value ETF       | 27,628,436       |       | 3,414,116 |  |
| Gotham Short Strategies ETF | -                |       | -         |  |

### NOTE 8 – INCOME TAXES AND DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid during the six months ended March 31, 2025 (estimated) and prior fiscal year ended September 30, 2024 were as follows:

| Fund                        | Distributions paid from: | March 31, 2025 |           | September 30, 2024 |           |
|-----------------------------|--------------------------|----------------|-----------|--------------------|-----------|
| Gotham Enhanced 500 ETF     | Ordinary Income          | \$             | 4,292,739 | \$                 | 3,836,259 |
| Gotham 1000 Value ETF       | Ordinary Income          |                | 3,553,968 |                    | 2,397,237 |
| Gotham 1000 Value ETF       | Capital Gains            |                | 1,580,668 |                    | _         |
| Gotham Short Strategies ETF | Ordinary Income          |                | 88,870    |                    | 46,249    |

As of the prior fiscal year ended September 30, 2024, the components of the distributable earnings/(accumulated losses) on a tax basis were as follows:

|  | E  | Gotham<br>nhanced 500<br>ETF | Gotham<br>1000 Value ETF |    | Gotham Short<br>Strategies ETF |
|--|----|------------------------------|--------------------------|----|--------------------------------|
| Investments, at cost (a)                       | \$ | 429,645,800 \$               | 164,481,239              | \$ | 10,481,662                     |
| Gross tax unrealized appreciation              |    | 90,366,227                   | 21,361,119               |    | 1,959,485                      |
| Gross tax unrealized depreciation              |    | (15,204,369)                 | (3,903,075)              | _  | (1,925,156)                    |
| Net tax unrealized appreciation (depreciation) |    | 75,161,858                   | 17,458,044               |    | 34,329                         |
| Undistributed ordinary income (loss)           |    | 3,148,493                    | 3,553,968                |    | 80,186                         |
| Undistributed long-term capital gain (loss)    |    | <u> </u>                     | 1,580,652                | _  | _                              |
| Total distributable earnings/(accumulated      |    | <u> </u>                     |                          |    |                                |
| losses)  |    | 3,148,493                    | 5,134,620                |    | 80,186                         |

a) The difference between book and tax-basis cost of investments was attributable primarily to the treatment of wash sales.

Net capital losses incurred after October 31 (post-October losses) and net investment losses incurred after December 31 (late-year losses), and within the taxable year, may be elected to be deferred to the first business day of each Fund's next taxable year. As of the prior fiscal year ended September 30, 2024, the Funds have not elected to defer any post-October or late-year losses.

As of the prior fiscal year ended September 30, 2024, the Gotham Enhanced 500 ETF had long-term capital loss carryovers of \$(4,873,979) and the Gotham Short Strategies ETF had short-term capital loss carryovers of \$(15,758,662), which do not expire.

### **NOTE 9 – SHARES TRANSACTIONS**

Shares of the Funds are listed and traded on the Exchange. Market prices for the shares may be different from their NAV. The Funds issue and redeem shares on a continuous basis at NAV generally in large blocks of shares, called Creation Units. Creation Units are issued and redeemed principally in-kind for securities included in a specified universe. Once created, shares generally trade in the secondary market at market prices that change throughout the day. Except when aggregated in Creation Units, shares are not redeemable securities of the Funds. Creation Units may only be purchased or redeemed by Authorized Participants. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem the shares directly from the Funds. Rather, most retail investors may purchase shares in the secondary market with the assistance of a broker and are subject to customary brokerage commissions or fees.

The Funds currently offer one class of shares, which has no front-end sales load, no deferred sales charge, and no redemption fee. A fixed transaction fee is imposed for the transfer and other transaction costs associated with the purchase or sale of Creation Units. The standard fixed transaction fee for the Funds is \$500, payable to the Custodian. The fixed transaction fee may be waived on certain orders if the Funds' Custodian has determined to waive some or all of the costs associated with the order or another party, such as the Adviser, has agreed to pay such fee. In addition, a variable fee may be charged on all cash transactions or substitutes for Creation Units and Redemption Units of up to a maximum of 2% of the value of the Creation Units and Redemption Units subject to the transaction. Variable fees are imposed to compensate the Funds for transaction costs associated with the cash transactions. Variable fees received by the Funds, if any, are disclosed in the capital shares transactions section of the Statements of Changes in Net Assets. The Funds may issue an unlimited number of shares of beneficial interest, with no par value. All shares of the Funds have equal rights and privileges.

### **NOTE 10 – RECENT MARKET EVENTS**

U.S. and international markets have experienced and may continue to experience significant periods of volatility in recent years and months due to a number of economic, political and global macro factors including uncertainty regarding inflation and central banks' interest rate changes, the possibility of a national or global recession, trade tensions and tariffs, political events, armed conflict, war, and geopolitical conflict. These developments, as well as other events, could result in further market volatility and negatively affect financial asset prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets, despite government efforts to address market disruptions. As a result, the risk environment remains elevated.

### **NOTE 11 – SUBSEQUENT EVENTS**

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. Management has determined that there are no subsequent events that would need to be recognized or disclosed in the Funds' financial statements.

### <u>Item 8. Changes in and Disagreements with Accountants for Open-End Investment Companies.</u>

There have been no changes in or disagreements with the Fund's accountants.

### Item 9. Proxy Disclosure for Open-End Investment Companies.

There were no matters submitted to a vote of shareholders during the period covered by the report.

<u>Item 10. Remuneration Paid to Directors, Officers, and Others of Open-End Investment Companies.</u>

See Item 7(a). Under the Investment Advisory Agreement, in exchange for a single unitary management fee from the Fund, the Adviser has agreed to pay all expenses incurred by the Fund, including Trustee compensation, except for certain excluded expenses.

<u>Item 11. Statement Regarding Basis for Approval of Investment Advisory and Sub-Advisory</u> Contracts.

Not applicable.
